met with by drovers in New-York for years was expe rienced this week. It was worse for them on the sec end than on the first day. Prices, it is true, have run lower, but when the quality of the bullocks is taken into account, the price has not been as low. The rates and full particulars, will be found under the proper bead of market reports, and it will be seen that many goed, fair quality of fat bullecks were sold at not over 81 cents a pound for the meat, giving a large quantity of fat for profit to the butcher.

THE TIME BALL.-The electric time ball erected of the Custom-House by Messrs, T. & J. N. Chester will mark the hour of twelve to-day. It will rise to halfmast ten minutes before the hour; five minutes before the bour it will be raised to the cross-trees, and will be dropped at noon. The time marked will be New-York mean time, obtained by transit observation from the Merchants' Exchange by Mr. Samuel Hammond, A short link being yet wanting in the telegraph conne tion with the Dudley Observatory, the ball will be dropped for a few days as above. Due announcement will be made of the completion of the Observatory

THE INSTITUTION FOR THE DEAF AND DUME, -One of the pleasantest features of Anniversary week is the exhibition of the pupils of the Institution for the Deaf and Dumb, whose anniversary takes place this after-neon, at 31 o'clock, at the Academy of Music. The exercises, conducted by the venerable Principal, Dr. H. P. Peet, will exhibit not only the proficiency of the pupils in the use of the English language, but also nuereus specimens of their own beautiful vernacular, consisting of sign-renderings from the poets, colloquia discourse, and pantomimic description.

THE CHICAGO CONVENTION .- It is estimated that ever 10,000 persons are to visit Chicago on the occasion of the Republican National Convention. The Railreads yesterday reduced their fares to \$30 for excursion tickets. A special train of the Eric Railroad is to leave on Sunday afternoon at 3 o'clock, and will proceed directly through to Chicago via Lake Shore Road, arriving there on Monday evening. A train of the New-York Central Road will leave on Saturday evening at 5 o'clock, and will allow passengers to remain at Ningara on Sunday. It will leave Suspension Bridge via the Great Western Road, and arrive at Chicago on Monday night.

SERENADE,-The Hon, C. B. Woodruff, member of the IIId Assembly District of this city, was on Tuesday evening honored by a vocal scremade by the German "Liederkranz," as a slight testimonial for his services in the Legislature in the procurement for them of an act of incorporation. The Hon. Mr. W. was then formally presented with a neatly lithographed certificate of membership of the "Liederkranz," duly signed. The act incorporating this society expresses its objects to be the cultivation and promotion of vocal music in the city of New-York. Mr. Woodruif is himself an amateur vocalist.

SWINDLING A GERMAN GIRL.-Regina Flagler, a German weman who recently arrived in this country to join her husband, was induced by John Anderson to go to an emigrant boarding-house. Having got her in the house, he attempted an outrage upon her person, but was unsuccessful. She having some \$30 in foreign gold, he teld her it was of no use here, and induced her to allow him to take it to get it exchanged. Of course she saw nothing more of him or her money at the time, although she has made dilligent search during the past week. Yesterday, as she was walking on the Battery, however, she caught a glimpse of him, and caused his arrest. Anderson was taken before Justice Connelly, who committed him to answer.

No. 444 BROADWAY.-JACOR'S; THE WIZARD.-The cutertainments of this performer are attracting large audiences, which grow larger every night, for be is really the best in this peculiar way that has appearer here for several years. His wonders have freeliness and originality, and are different in most respects from the backneyed and threadbare mysteries wherewith we have, for so long time been accustomed to be deluded. It is really refreshing to be juggled in cases befooled by strange devices of conjuration, instead of the old accustomed cheats. Though most of Jacob's "experiments," are entirely novel, he undertakes one or two that we have witnessed. The " Inexhaustable Bottle" is introduced, but it is manipalated in a manner more dexterous than we have ever | pany, by which they are prevented from running any in trade for a wholesale liquor store. All the other tricks are equally good. A new and very amusing feature of the performance is the "Goblin Sprightly, a sort of low-comedy servant or assistant, who make a good deal of fun after his own fashion. On the whole, an evening with Jacobs is decidedly interesting.

The Congregational Collation—the annual "feast" of the Anniversaries-takes place this evening at the City Assembly Rooms. The entertainment will consist of speaking, music, supper, and flowers.

We notice the subscription books for new stock in the present Corn Exchange are now open for the purpose of erecting a new building on the old site, suitaable to the entire wants of the produce trade. Judging from the respectability of the parties engaged in this movement, its success is probable. It would be well for parties subscribing for other locations to look into this matter. The old organization has a good act of incorporation, and the present location is a good one. The call for subscriptions is signed by Messrs, D. & A. Dows & Co., Jesse Hoyt & Co., J. B. Herrick & Son, P. I. Nevius & Sons, L. Roberts & Co., Boyd & Hincken, J. M. Fiske & Co., Whittlesey & Sher-

Five Points House of Industry .- The anniverpary of this institution takes place this evening, at the Academy of Music, at 74 o'clock. In addition to addressee from the Rev. John Cotton Smith, the Hon. J. Briggs of Ohio, the Rev. Theodore L. Cuyler, and the Hon. Henry J. Raymond, three hundred children of the institution will take part in the exercises, so that the occasion will be one of much interest.

MILITARY FUNERAL.-The remains of the late Lieutenant Colonel Charles H. Sandford, Division Quartermaster, having arrived in this city from Vene zuela, were borne to their final resting place in Trinity Cemetery, yesterday afternoon, a large body of military men and many friends and relations uniting in paying the last tribute of respect to the deceased. At 2 o'clock p. m. the officers of the First Division of New-York State Militia, in full uniform, together with Company H of the Seventh Regiment, National Guard, Captain Shumway, of which deceased was for many years a member, assembled at the corner of Eighth avenue and Twenty-third street, and thence, preceded by the Seveth Regiment Band, marched to the residence of Major General Sandford, No. 312 West Twenty-second street, whence they escorted the remains of deceased to Trinity Chapel in West Twenty-fifth street.

The melancholy cortege was met at the door of the chapel by the Rev. Dr. Highee and the Rev. Mr. Dix. and conducted up the aisle to the chancel, where the coffin was deposited. Mr. Dix commenced reading the preliminary to the burial service, after which an anthem was sung by the choir. After the reading of the lesson Lather's Hymn was sung. Dr. Highee then continued the service, saying, "Man that is born of a woman bath but a short time to live, and is full of misory. He cometh up, and is cut down like a flower; Seeth as it were a shadow, and never continueth in

one stay." The verse from Revelations, "I heard a voice from Heaven saying unto me, Write from henceforth blessed are the dead," &c., was beautifully sung by

a lady in the choir, and the closing prayers offered by the Rev. Dr. Higbee.

The coffin was borne from the church and placed in a hearse and conveyed to Trinity Cemetery, the family of deceased, the pall-bearers, and many friends following in carriages. The pall-bearers were Dr. Sayers, Col. Morell, Ma-

jor Foster, Lieut,-Col. Tomes, Dr. Woodward, Lieut. Col. Bibby, Major Richards, and Col. Mead. The body of the deceased was encased in a coffin covered with black cloth, and ornamented with silver

BROOKLYN ITEMS.

THE FURMAN-STREET RAILROAD.—The construction of the railroad in Furman street is again interrupted by an injunction. In May last the Central Railroad Com pany enjoined the City Railroad Company from com-pleting a track, which the latter had commenced, claiming that it was to be built under an agreement that it should be used by both in common. This injunction was disposed of, and the Central Company was making preparation to put cars on the route, connect with the Atlantic street read, when the old company procured an injunction against the new comor on Enyman street or from com anting their Day man street route with Atlantic street. It will, therefore, be some time yet before the traveling community will be accommodated with a railroad to connect Fulton ferry with South Brooklyn.

Loss by Fine .- The Fire Marshal's report for the eix months ending May 1, shows that the losses by fire during that period in the city were about \$46,269. The amount of insurance effected upon the property destroyed was \$122,450. Ten persons were burned to death within the same time, four of them by explosions of camphene lamps.

WASHINGTON PARK,-Workmen were engaged yes terday in repairing the walks of this Park, and putting it in order generally. The trees are beginning to bud, and the grass looks fresh and green. It appears to be the desire of the authorities to keep it in order; and it they do so, it will be the most beautiful place of resort in the city during the hot Summer months. Consider able repairing is, however, still necessary, and proper police regulations are required to protect women and children from annovance.

SUPREME COURT-GRNERAL TERN-MAY 2.—Before Justices SUPREMEARAN, MULLIS and LEGNARD.

DOES A BILL SIGNED BY THE GOVERNOR AFTER THE ADJOURNMENT OF THE LEGISLATURE RECOME ALAW?

The People, by their Attorney General, against James Bowen et al.

This was a sanit brought by the Attorney-General to have the charter of the defendants, forming the Metropolitan Gas Light Company, roycked, and the same declared null and void. The complaint alleged that the defendants claim to act by virtue of an act creating the Company, passed April 17, 1855.

The bill passed the Assembly on the 5th of April, 1805, and the Senate on the 13th, but was not signed by the Governor till the 15th of April, while the Legislature had adjourced on the 14th of April, whereby the plaintiff claims the bill never became a law, not having been signed or returned by the Governor during the session of the Legislature.

The defendants demoured to the complaint, as not stating a suf-

resion of the Legislature.

The defendants demurred to the complaint, as not stating a sufficient cause of action.

This demurrer was argued at Special Term before Justice Sutherland, who gave judgment for the defendants on the demurrer, with \$67 for costs. From this judgment the plaintiffs appealed

with #97 for costs. From this judgment the plaintiffs appealed to the General Term.

The plaintiffs' main point was that the bill, not having received approval during the session of the Legislature, became null and void.

The defendants claim that the bills were constitutionally signed, and that, by the provisions of the Constitution, it was wholly immaterial in respect to approved bills (passed by both Houses), whether the Legislature was in session or not at the time they were signed by the Governor.

The case was argued to day. Morrell, Willard & Howe for plaintiffs and appellants; W. W. Evarts of counsel. Schell, Slosson & Hutchins for defendants and respondents.

FALSE INFRISONMENT.

John Becker agt. Charles Caffrey.

Plaintiff in this suit claimed damages for false imprisonment. It was alloyed that plaintiff kept a lager beer soloon in Seventh avenue, gad a few months ago celebrated his birthday with music, somewhat loud in its tone. The defendant, who was a Sergeant of Police of the Twenticht Ward, ordered him to desist, and shut up his store. Plaintiff ordered his bar-keeper to desic, and shut up his store. Plaintiff ordered his bar-keeper to do so, but the defendant insisted that he should do it personally, and upon his refusal, locked him up in the Station-house all night, and the next morning upon the compalain of the officer, he was fined \$10 for disorderly conduct. The defendant denied all the illegations in the complaint. The Jury were directed to bring in a warded verdict.

llegations in the complaint. The Jury were directed to bring in scaled verdict.

David Levy for plaintiff; C. S. Spencer for defendant, SULT AGAINST THE CITY. Concept agt. The Mayor, &c.

In this case the plaintiff sued for damages for injuries

In this case the plaintiff sued for damages for injuries scattelized by falling into a sewer. Plaintiff alleged that while he was proceeding to his residence through Forty-lifth street, in January, 1852, the night being dark, he fell into the sewer, which had been left open, whereby he sustained severs injuries. On the trial, it appeared that there were two streets leading to the plaintiff's house, and that knowing the fact he had chosen the most dangerous.

Under these circumstances, the Judge granted the motion for a son-suit, and diamissed the complaint.

WEDNESDAY, May 9-P. M. The Stock market was very active and buoyant this

morning, although the bear jobbers endeavored to check the upward movement by a vigorous attack upon Central. The market, however, took their stock freely, and rose under it. As we anticipated, the continued firmness of the market has brought in outside speculators again, and the commission houses had more orders to-day to buy than at any time since the recent decline commenced. An important feature in adding strength to the market to-day, especially in Western shares, is the impression which is gaining ground that there is to be a large export demand for cereals during the present year, which will give the grain roads a largely increased traffic in freights, and collaterally in passengers. There is a great surplus of corn remaining of the last crop in the West, which is available for export, and which must come forward to tide-water. The accounts from England indicate the probability that all the cereals we can spare will be needed, and some of our most prominent grain operators predict a larger export in 1860 than in any year since the famine year of 1847. Should these anticipations be realized, the influence upon the fortunes of the Western roads must be very marked, and bring them up nearly to the prosperity of their best years. Of Central the registered sales at the morning Board were 5,500 shares, the market opening at 80 and taking 3,600 shares, cash stock at 801, closing at 80. Harlem was very firm, but not active. The advance in Eric stock was not fully sustained, but the bonds are very firm. Reading was firm, but not active. The impending dividend on Pacific Mail brought in buyers and the market ran up to 107. Panama cash stock is scarce but the principal seller recently put out a further amount of seller's options at 1451. The Western shares were in large demand and buoyant. Galena opened at 651, and sold during the day as high as 67. Rock Island did not come out freely under an advance from 68? to 70, at which it closed. Toledo sold as high as 30, but closed at 29%. Michigan Central was strong at 49%. There was a better demand for railroad bonds, and the quotations were generally better. Hannibal and St. Josephs were an exception, and fell off to 72. The Erie issues were very strong. State securities were heavy. Virginia fell off \(\frac{1}{2} \) \(\psi \) cent under the call for bids for a new issue of six millions. Louisianas were also heavy at a decline. Missouris declined i & cent. The feeling at the Second Board was one of great strength, and after the regular session higher oints in some cases were touched. Central was in demand, and two or three thousand shares were sold at 804. The closing quotations were, for U. S. 5s. A passenger on the Adriatic, on her recent trip to Liverrool, gives the following account of her performances:

erpool, gives the following account of her performances:

The engines have worked admirably, so far as I can judge, every part performing its appropriate functions in proper time and orders, and the engineers seemed remarkably well pleased, and intext agreeably disappointed, as they apprehended that so much new and complicated machinery might give them some trouble. The engines have been stopped but twice, for about thirty minutes each time. The first about three days since, and again last night, the occasion, in each instance, being a little nut or "toe" getting loose, and it was impossible to screw it up properly without the short stop above named. But for this little thing we should have lad no occasion to stop at all. There was probably never a greater success than the engines of the Adrialic; and the owners may congratulate themselves on being in possession of the fancet steamer in the world.

In fact, the sea seemed to retard us very little, as we keep up our 300 miles a day without regard to weather. There seems to be but one opinion among the large number of passengers (many of them old saits), that she is, without any exception, the finest steamer effoct. She is a remarkably fine sea hoat, scarcely breaking the water at all, and leaving it as smooth as possible. The efficers are above priase. I condider the success of the ship a fixed fact, and I think before the season is over she will cross the occan in less than nine days, and prove herself to be the fastest, as well as the best, steamer affort; and you may assure your friends who are looking this way, that if they wish to come over here safety, quickly, and agreeably, by all means to come in her. We shall arrive at Cowes this evening. At a meeting of the passengers, held this day, some very laudatory resolutions were passed, which will doubtless be sent to you by the Asia. The passengers also presented Capt. Comstock with a purse of \$450, ns a compliment. This letter I intend to put on bourd the tog at Southampton, and to be ferwarded to Liverpool

market in that city:

There is little new to say of Boston stock matters. Sound stocks go higher and higher, and if money is to rule at \$505 \$\phi\$ cent we suppose that anything that pays \$\phi\$ cent will go to pare thereabout. The mining shares do not occupy so much of public attention as formerly, though each has its knot of friends and supporters. Into the low prised shares, particularly, the sperators rush for one or two thousand shares, on the basis of inventible facts, comparative cheapness, or the presumed number of "shorts." Activity ensues, everybody buys, and prices advance—the original operators step out with moderate profit—and the last buyers sell at a loss, or lug along until another "spirt," the stock meanwhile becoming "as dead as a herring that is red." Upon the whole, outsiders are decidedly less credulous than formerly, in the way of copper letters and prospects.

Still, the favorite mines have their warm friends and believers.

credious than formerly, in the way of copper letters and prospects.

Still, the favorite mines have their warm friends and believers, in the face of all soits of contingencies. And at present, the probabilities of many leading mines are eminently favorable. The till and Minnesota never looked better than they do now, and the Netional. Rockland, Pewable and Quincy seem moving with rapid strides, toward a dividend point. The shareholders of all six mines are full of hope and confidence, and though there may be many a slip 'twist cup and lip, in mining especially, there is no good reason to doubt that all reasonable hopes of these properties will be fulfilled in good time.

"Gold Mining Stocks," or rather Gold Surface Mining Stocks, with canals and hose, are attracting considerable attention among the sarepine, enterpring and speculative. Two companies are already in existence here, with such sets of stockholders and under such amplies of management as will insure the best efforts of all concerned. The figures of estimated profits are large, but the hydraulic method is both cheap and effective. The two companies are the "Yahoola" and "Naccochee."

It is stated that a part of the Buffalo and Pittsburgh

ompanies are the "Yahoola" and "Nacoochee." It is stated that a part of the Buffalo and Pittsburgh Railroad, lying between the coal fields of McKean County, Pa., and the junction with the New-York and

Eric Railroad, is to be completed at once, thus bringing a large coal trade to Dunkirk. The road is ready for The Peoria (Ill.) Transcript reports. The Peoria (III.) Transcript reports.

"We learn that the Logansport, Peoria and Burlington Railroad is doing a heavy business in the way of carrying freight at
the present. In addition to the through freight, which is the heavy,
a large quantity comes over the road by way of Chicago Branch.
Yesterday morning, the regular train had twenty loaded cars out
of Logansport. It was followed by an extra, which took on
twenty additional loaded cars at Gilman for Peoria. A very
heavy freight also went out from Peoria last evening. We are
glad to notice these signs of prosperity."

By virtue of sundry acts of the General Assembly of Virginia, notice is hereby given that the Board of Public Works will receive, at any time previous to the last day of September, 1890, proposals for a 6 per cent loan to the amount of \$6,000,000 (six million dellars), payable in such monthly installments as may be required, not exceeding \$\frac{4}{2}00,000 (two hundred thousand dellars) per month, said loan to be redeemable in thirty-four years, interest psyable semi-annually on the lat day of January and lat day of July of each year, at the treasury of the State in Richmend.

Proposals are also invited for the same loan at \$\frac{1}{2}\$ or 5 per cent. Federal, sterling or other appropriate bonds will be issued for the loan, as paid in at the option of the lender.

By the Constitution of the State, and laws in pursuance thereof, a sinking fund if established for the punctual payment of the interest semi-annually, and the redemption of the principal in thirty-four years of the issue of the bonds. These provisions of law, the large and increasing taxable resources of the State, and tax laws, fundals the strongest possible assurance of the safety and value of the loan. Scaled proposals to be addressed to the Bard.

In relation to the movement in Cotton, W. P. Wright & Co.'s Circular says:

Receipts continue on a smaller scale than in the corresponding weeks last year. At the interior towns, in April, the receipts were on a very small scale, and the stock held on lat May was 30,000 hales less than at the corresponding dates last year.

Exports are somewhat moderated, and will shortly be light; there is little doing for Great Eritain at the South.

Cator.—Within a few days past the accounts are unfavorable for the growing crop. The freets, 24th and 27th April, have done some damage in Tennessee, and now we learn that further injury was done by frosts in Upper Georgia and Alabams. In Florida the seed had not germinated on 2d May, owing to unusual sold weather and the want of rain.

The Horse Market. NEW-YORK, May 7, 1860.

Contrary to the expectation of those who follow the business of buying horses in the country to sell in .this market, the month of April has proved rather a dull one. The weather has been good for the trade, which requires mild, pleasant days for out-door business, and driving on the road, but there has been a want of buyers. It is the opinion of some of the best informed men in that part of Twenty-fourth street which is almost exclusively devoted to sale stables, that there was not more than three-tourths as mang horses sold during April 1860, as in April 1859, and that prices lave, as a general thing, ranged lower. This, with the high price of bay and grain, has been hard upon the drovers.

The price of board of a horse in the sale stables is sixty five cents a day. The hay at present costs the stable men about \$1.25 a cwt. Of course this adds much to the cost of keeping. A countrymen, who has come, perhaps, for the first time, is induced to sell out as soon as possible, and in many cases he makes up his mind, before he has been here a week, to accept any offer that will cover cost, giving up all hopes of the anticipated profit. This has enabled the stable-keepers here to buy all the horses they want on the street cheaper tian they could buy and bring them in from the country.

A great portion of the trade in work horses this Spring, and particularly through April, has been with farmers. A great many of them sold their work oven has tail, and have been obliged to look for other teams; and sithough beef cattle have been low, there have been few work oven in market, and none at a low price. Fat oven have been brought from the West in great numbers, but generally they have been so fat that butchers could afford to outbid the farmers; consequently the farmers, finding horses cheap, have bought them, instead of oven. But for this rather numeral demand, the Horse Market would have been still more dult.

The demand for shipping has been constant but smail. That, equires mild, pleasant days for out-door business, and

price. Fat ozen have been brought from the West is great numbers, but generally they have been so fat that butchers could afford to outbid the farmers, consequently the farmers, finding horses cheap, have bought them, instead of ozen. But for this rather unusual demand, the Horse Market would have been still more dull.

The demand for shipping has been constant but smail. That, however, does not compete with the demand for farm horses. The farmer comes into maket in immediate wast of a teem, and unless he is a very shrewd buyer, which is not the case one time in ten, he will betray his necessity, and the horse deader-profuse horse or a drove of them, whenever a horse fairly worth \$125 can be bought for \$100, or one worth \$150 can be had for \$115. That is about the average of prices for horses for shipping.

Good farm horses average from \$125 to \$200, and city work-horses generally about \$25 higher. One horse we asso offered at \$250, should go over 175 hands high, and weighing about 16 cut. He showed the blood of the English cart-horse, and came, we understand, from Canada West.

From Canada East there is constantly at Chamberlin's stable a great assortment of Canack horses, generally held from \$100 to \$150 cach. Sometimes, if one has speed, his price gets upmuch above his real value. These horses, without any of the real horse characteristics about them, are often seen here not over 13 hands high. This class, if well gatied for saddle-horses, often sell higher, considering their size and value for work, than any other class of horses.

The trade in fancy horses, and in high-priced coach horses, has been very moderate the past mouth. Dealers are looking forward. "May-moving." We believe it is owing more to the high price of horse-keeping, and to the fact that the trade no longer concentrates in Twenty-fourth street. A proceed, the stable here are very full, some of them containing from 110 to 200 head of horses, all for sale cheap. That they do not sell readily is not so mach owing to the prices being above what

Butten—The downward tendency noticed in our last has continued through the week, and to day the market is most decidedly dull at lower rates than have been before accepted for new letter. Yellow Butter begins to come in from Ohio and the Southern counties of this State, which crowds hard upon the whiter stock of the North. White Butter, topped with Yellow, will soon be prevalent, unless the makers are discrect enough to keep the two separate; and such mixtures will surely sell at astonishingly low figures. Orange County, in pails, has dropped to 22c for an outside figure, and ranges from this down to 18c. Weish tubs are down to 18c. for the best. The receipts are large, and the price of White and Mixed Butter must rapidly randdown under the increasing receipts of choice Yellow. The best yellow Western Reserve is salable at nearly the same rates as State. We drop our quotations of old Butter. We quote:
